

Grover Cleveland High School

Academic Pathways

Fall 2012

What will *you* major in?

At Grover Cleveland High School, students have the opportunity to major in an area of interest and be part of a small learning community! This means that your elective classes will be in a subject area that you get to select and that will guide you towards advanced learning or, depending on the major, certifications. Selecting a pathway (you can call them majors) will automatically place you in an academy. So, say for example, you choose the Engineering pathway, you will automatically be a part of the STEM Academy and the STEM Academy will be your small learning community.

Most of you have already selected your Academy, but that doesn't mean that you already selected a *pathway*. If you have not yet selected a *pathway* of study (your major) it's important that you contact the school immediately to submit your preference for programming:

During *August up until August 17th*, call: 718-381-9600 ext. 1297 to provide your pathway selection.

From Tuesday, August 21st through Thursday, August 23rd, contact your counselor from this past school year to provide your pathway selection at:

Ms. Smith	Ext. 2171
Ms. Gluzak	Ext. 1305
Ms. Irace (Ventura)	Ext. 1307
Mr. Lo Castro	Ext. 1309
Ms. Rosario	Ext. 1300
Ms. Winkler	Ext. 1313

SELECT YOUR PATHWAY FROM THE LIST BELOW

Pathway(Major)	Academy
Engineering	STEM
Information Technology	STEM
Drama	Arts and Humanities
Music	Arts and Humanities
Fine Arts	Arts and Humanities
Humanities	Arts and Humanities
Business	Business, Hospitality and Tourism
Hospitality and Tourism	Business, Hospitality and Tourism
Personal Training	Allied Health and Athletic Sciences
Life Guarding	Allied Health and Athletic Sciences
First Aid/CPR	Allied Health and Athletic Sciences

Grover Cleveland High School Academies

The Academy of Allied Health and Athletic Sciences will help students gain the knowledge and skills required to be successful in various health services and athletic related professions. It promotes a unique relationship between a rigorous academic curriculum and real life experiences needed to succeed in the workplace of the 21st century.

The Science, Technology, Engineering, and Mathematics (STEM) Academy is designed to prepare students for college, work, and life in the 21st century. STEM Academy students will experience learning in a fun and interesting way. Our students will be introduced to Robotics, designing Smartphone Apps, bridge building, science research, and computer programming. We will provide students with multi-media rich learning through a blended learning model, an integration of face-to-face classroom methods and online learning. STEM students will have opportunities to earn college credit while still in high school through our dual enrollment credit courses through LaGuardia Community College

The Academy of Business, Hospitality and Tourism helps students chart career paths in one of the world's largest industries, from hotel management to sports, entertainment and event management and includes the study of geography, economics and world cultures. It also connects high school students with the world of financial services, offering a curriculum that covers banking and credit, financial planning, international finance, securities, insurance, accounting and economics

The Academy of Arts and the Humanities emphasizes the importance of infusing art, literature, drama, music and the study of humanity into the everyday curriculum. Students will receive opportunities to showcase their talents in various aspects of the arts or humanities while preparing for the competitive world after high school.
